Advanced Electronic Solutions Inc. (AES) is pleased to announce the addition of direct lender leasing for all of your Security System Integration and Fire Detection needs. We have partnered with one of northeast's largest commercial leasing lenders and are excited about providing affordable lease financing based on a long history of experience. Leasing should be seriously considered for the following reasons:

PRESERVE YOUR CASH FLOW: With leasing, you need only a minimal initial investment to get the equipment and service you need, and you can comfortably spread your payments out over time. This allows you to preserve your working capital for the operation and growth of your core business.

MAINTAIN YOUR CREDIT: Choosing to lease (with a \$1 buyout at term end) allows

you to keep your available credit line open for operations and short term financing.

INCREASE FLEXIBILITY: Your integration and fire needs will grow and change over time, along with your business. With equipment leasing, you have the option to take on additional equipment or upgrade the equipment you currently possess without a large capital outlay.

TAX DEDUCTIONS: Take advantage of the new tax deduction limits for equipment as set out in section 179 of the US Tax Code. In some cases, as much as 100% of the equipment cost, up to a specified amount, can be immediately deducted from your taxable revenue.

CUSTOMIZED FINANCING: With integration and fire leasing, you can choose from a variety of payment plans that follow the

natural flow of your business.

EASY APPROVAL: Avoid the strict requirements and long wait associated with traditional financing. Our application takes only a few minutes to complete and approval can take only a single day.

We here at AES and AES FIRE are very excited to be given the opportunity to offer our clients a quick and easy solution when it comes to security and fire system leasing. All of our leases will include an option for maintenance that matches the term, up to five years, giving you total peace of mind throughout the lease.
